NEW
PERSPECTIVES
ON SCANDINAVIAN
DESIGN

Muuto is rooted in the Scandinavian design tradition characterized by enduring aesthetics, functionality, craftsmanship and an honest expression.

By expanding this heritage with forward-looking materials, techniques and bold creative thinking, our ambition is to deliver new perspectives on Scandinavian design.

In fact our name, Muuto, comes from *muutos*, meaning new perspective in Finnish. We handpick leading contemporary designers who are strong interpreters of our philosophy and combine their talents with the passionate Muuto creative team.

You will know our design because it has muutos: objects made sublime through new perspectives, enjoyed across the world, representing the best of Scandinavian design today.

BRINGING FEELINGS OF HOME TO PROFESSIONAL PROJECTS

We want to create designs that make spaces feel intuitively right, be it through the inviting comfort of a sofa, the ambient glow of a pendant lamp or the subtle texture of a coat hook, allowing us to feel at home and inspired, anywhere.

Setting out from the belief that design can affect our wellbeing, we strive to offer an extensive selection of designs with feelings of home for the evolving needs of modern spaces. Alongside this, we continuously develop the Muuto universe of colors and textures for our products to create and compliment atmospheres in any aesthetic direction. This allows you to explore the infinite possibilities of our collection to express the values of your project.

Our designs are created to be long-lasting in both their expression and quality. We place extensive emphasis on modern craftsmanship and high-quality materials while valuing the functional properties of each design, allowing for them to bring unique character and function to workplaces, hospitality settings and educational spaces for many years into the future.

MUUTO OFFERS A VAST READY-TO-SHIP COLLECTION & ENDLESS CUSTOMIZATION POSSIBILITIES

Extensive Ready-To-Ship Collection & Customization Possibilities

With our extensive Ready-To-Ship collection, many of our designs are available for immediate shipping in a broad selection of colors and upholsteries. Alongside this are our Made-To-Order options with many possibilities for customization, allowing you to tailor our designs to your specific project. Consult our price list for lead times within your region.

Configuration Made Easy

The entire Muuto collection is available in pCon.planner and 2020 CAP. The space planning software contains CAD files that is enriched with prices and product information, enabling you to configure Muuto designs to the exact needs of your project in a few easy steps, create high-quality 2D or 3D plans and deliver accurate price quotations—all at once. All our files, inspirational photos and much more are available for easy use in your design and planning process on professionals.muuto.com.

High-Quality Products

We produce most of our furniture in Europe. All Muuto furniture is covered by a 5-year warranty for contract orders.

A SUSTAINABLE PERSPECTIVE

We place the highest importance on creating designs that are long-lasting in their expression and quality, allowing for our products to be used for many years into the future.

HIGH-QUALITY PRODUCTS

To achieve high levels of quality in our designs, we produce all furniture in Europe while doing extensive testing across various levels of the North American standard ANSI/BIFMA tests, recognized as one of the most demanding tests in our industry, along with the **European EN-tests**. Please refer to the individual product pages within this catalog.

ENVIRONMENTALLY-FRIENDLY DESIGNS

Labels & Certificates

We want to take responsibility for the planet that we inhabit and the effect of our operations hereon by creating designs with lessened impact on the environment.

We seek to verify our products to high environmental standards and use these as guiding elements in our product development. Muuto participates in Declare, a label that examines the origin and ingredient report of each product. Furthermore, a number of our designs are Global GreenTag Level C-certified. Explore the certificates of each product on the individual product page in this catalog.

95% of all textiles used in Muuto's upholstered products have the EU Ecolabel, a label of environmental excellence that is awarded to products that meet high environmental standards throughout their lifecycle.

A large number of our designs have the EAC Declaration of Conformity to Technical Regulations of the Eurasian Economic Union.

Materials

We seek to work with innovative materials that have an environmental upside, as seen in our Under The Bell Pendant Lamp and Restore Storage Series, both made using recycled plastic fibers, alongside our Fiber Chair Series, made in a unique, recyclable plastic composite with up to 25% wood fibers.

HEALTHIER INDOOR CLIMATES

We want to ensure that our products contribute towards healthier indoor climates.

VOC & Water-Based Lacquer

The majority of our furniture collection has undergone **VOC-testing**, ensuring that the level of volatile organic compounds emitted for each product falls within acceptable thresholds, making for healthier indoor climates.

Our water-based lacquer is an environmentally friendly substitute for traditional oil-based lacquers. Water-based lacquer emits fewer chemicals than oil-based lacquers, making for better working conditions and reducing waste in the production phase.

Textiles

95% of all textiles used in our upholstered products hold the Greenguard Gold-certificate, verifying that their chemical and particle emissions fall within acceptable indoor air quality thresholds.

RESPONSIBLE MANUFACTURING & SAFETY

We want to secure that our products are socially responsible, both in the way that they are produced alongside contributing to safe environments.

Manufacturing δ Safety

All Muuto manufacturers have signed our Muuto Code Of Conduct, prompting them to adhere to the United Nations principles of human rights, anticorruption and non-use of child labor.

Beyond complying with standard regulations in our main markets, we also fire-test our upholstered products for regions and countries with specific requirements, including California in the US, the United Kingdom and Italy.

A TÆTILE DESIGN —FIBER FAMILY

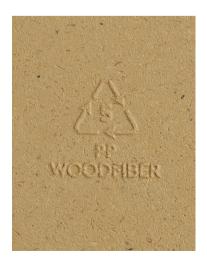

The Fiber Chair Family is a sustainable interpretation of the iconic shell chair, adding a new perspective to the form with its shell in an innovative, recyclable composite of plastic and wood fibers.

Designed in a simple form language that is slender on the outside—taking up little space in the room—while having a spacious inner, created for maximum comfort.

The unique material makes for a deep surface and soft, matte touch. Though invisible to the eye when viewed from afar, the natural details of the wood fibers are revealed when viewing the design up-close.

All non-upholstered versions of the Fiber Chair Family are marked with recycling 5, making them recyclable in future production to support circularity while lowering material waste.

"Rather than making a chair that had a loud and interrupting expression, we wanted to perfect the design in a subtle way, ticking off

FIBER ARMCHAIR SWIVEL & GAS LIFT BASE

by Iskos-Berlin

Fiber Armchair is made from an innovative composite of wood and plastic fibers for a deep, matte surface and soft touch. The design has a slender form that doesn't take up much space while having an embracing, spacious seat for maximum comfort.

DIMENSIONS

Swivel Base δ

Swivel Base w/Castors
Total height: 77 cm / 30.3"
Total width: 54,5 cm / 91.5"
Total depth: 56 cm / 92"
Armrest height: 67,5 cm / 26.5"
Armrest depth: 34 cm / 13.5"
Seat height: 46 cm / 18.1"
Seat depth: 44 cm / 17.25"
Seat width: 46 cm / 18.1"

Swivel w/Castors & Gas Lift (5-Star Base)

Total height: 72-84 cm / 28.3"-33.1" Total width: 70 cm / 27.6" Total depth: 70 cm / 27.6" Seat height: 42-54 cm / 16.5"-22.3" Seat depth: 44 cm / 17.25" Seat width: 46 cm / 18.1"

MATERIALS

Shell consists of an innovative composite of plastic and up to 258 wood fibers. The wood fibers and plastic blend is injected into the mold, forming the chair's shell. The Fiber Chair family is made partly from a natural material, therefore slight color variations can occur. The 4 and 5 leg swivel piece and cylinder are die casted aluminum. Pressurized gas lift cylinder.

FIBER ARMCHAIR WOOD BASE

by Iskos-Berlin

Fiber Armchair is made from an innovative composite of wood and plastic fibers for a deep, matte surface and soft touch. The design has a slender form that doesn't take up much space while having an embracing, spacious seat for maximum comfort. The chair's wood base creates a sturdy and timeless silhouette.

DIMENSIONS

Total height: 77 cm / 30.3" Total width: 54,5 cm / 21.5" Total depth: 56 cm / 22" Armrest height: 67,5 cm / 26.5" Armrest depth: 34 cm / 13.5" Seat height: 46 cm / 18.1" Seat depth: 44 cm / 17.25" Seat width: 46 cm / 18.1"

MATERIALS

Shell consists of an innovative composite of plastic and up to 258 wood fibers. The wood fiber and plastic blend is injected into the mold, forming the chair's shell. The Fiber Chair family is made partly from a natural material, therefore slight color variations can occur. For upholstered versions, the shell's inside is upholstered with foam and fabric. The fabric is glued to the shell's surfaces and stapled, which ensures a smooth and tight surface of the upholstery. The wood base is cut from solid oak and polished. Wood Base in environmentally-friendly water-based lacquer.

by Iskos-Berlin

The Fiber Side Chair A-Base adds a light expression to the Fiber shell through its base of chrome steel. With its A-Base, the chair is stackable with up to 15 chairs per stack. This makes it an ideal fit for settings that require flexible seating arrangements, such as canteens or conference settings.

DIMENSIONS

Total height: 77 cm / 30.3" Total width: 56 cm / 22" Total depth: 53 cm / 21" Seat height: 46 cm / 18" Seat width: 47,5 cm / 18.75" Seat depth: 45 cm / 17.7"

MATERIALS

Shell consists of an innovative composite of plastic and up to 25% wood fibers. The wood fibers and plastic blend is injected into the mold, forming the chair's shell. The Fiber Chair family is made partly from a natural material, therefore slight color variations can occur. Base is made from chromed steel tube (chrome III).

FIBER LOUNGE CHAIR TUBE & WOOD BASE

by Iskos-Berlin

With an embracing seat and a lightly hovering appearance, the Fiber Lounge Chair invites the user in for a refined and comfortable lounging experience. The design's soft and rounded curves gives the chair a welcomina look.

DIMENSIONS

Total height: 74,4 cm / 29.3" Total width: 60 cm / 23.6" Total depth: 69 cm / 27.2" Seat height: 38 cm / I5" Seat width: 60 cm / 23.6" Seat depth: 49 cm / 19.3"

MATERIALS & PROCESS

The plastic shell's inside is upholstered with foam and fabric. The fabric is glued to the shell's surfaces and stapled, which ensures a smooth and tight surface of the upholstery. The tube is CNC-bent and powder coated for a deep look. Wood base is cut from solid oak and wet lacquered. Colored versions receive a powder lacquer on the base after polishing.

LINEAR SYSTEM POWER SOLUTION

by Thomas Bentzen

A custom integrated Power Solution that can be added to the Linear System Series.

TABLE POWER OUTLET

The Table Power Outlet can be mounted on the table and has two outlets to which standard plugs can be connected as well as a USB-A and USB-C plug.

POWER SOLUTION

For a seamless experience the Linear System Series features a tailormade power solution for all Mounted Lamps and Table Power Outlets, so that all cables are seamlessly integrated.

Each Power Kit has five outlets to which Linear Mounted Lamps or Table Power Outlets can be plugged in.

ADD POWER TO YOUR CONFIGURATION

If you've chosen a predesigned table configuration, simply select the matching readymade power configuration.

If you have created your own table configuration from scratch with the individual modules, select a Power Kit and add a Power Extension Kit for every table module added. For more guidance, visit the how-to-order guide in the price list.

LINEAR STEEL TABLE & BENCH

by Thomas Bentzen

The Linear Steel Series is a new perspective on modern outdoor furniture through its straight lines alongside the folded edges, half-circular intersecting legs and small spacing for easy removal of water. Kept visually clean for longlasting aesthetics, the Linear Steel Series finds its distinct character through subtle detailing and a simple expression.

DIMENSIONS

OUTLINE DAYBED

by Anderssen & Voll

Translating the simple lines and elegant sentiment of the Outline Series into the daybed typology through a new perspective on the archetypal 1960's Scandinavian design sofas. Add a Cushion for additional comfort and neckrest. Cushion is not attached to the design but has a flat bottom that keeps it in place. Adds elegant comfort to lounge areas, public spaces, hospitality areas, lobbies and more.

DIMENSIONS

Daybed

Width: 200 cm / 78.8" Height: 40 cm / I5.7" Depth: 82 cm / 32.3"

Daybed Cushion

70 cm x 30 cm x I2 cm / 27.6" x II.8" x 4.7"

MATERIALS

Upholstery cover with granulated foam, feathers and fiber filling. Powder coated aluminum legs.

ACCESSORIES

Daybed Cushion.

MADE-TO-ORDER OPTIONS

Option of Polished Aluminum legs are made-to-order. The Outline Daybed can be upholstered in all colors from Kvadrat's Remix, Fiord, Rime, Steelcut, Steelcut Trio, Canvas, Clara, Twill Weave, Hallingdal, Divina, Divina Melange, Divina MD, Vidar and Balder textile series, δ colors from Arve's Vancouver textile series and in all of our various leather qualities. COMPILE SHELVING SYSTEM

by Cecilie Manz

With a functional and modern appearance, the Compile Shelving System can be integrated into a multitude of interior spaces—whether the need is for an individual module or an entire wall of shelves, the Compile Shelving System brings a modern touch.

DIMENSIONS

Shelves

Height: I4 cm / 5.5" Depth: 42 cm / I6.5" Width: I2O cm / 47.25"

Storage Surface per Shelf

Width: II5 cm / 45.25" Depth: 40 cm / I5.75"

Dividers

Large dividers: 39 cm / I5.5" Medium dividers: 28,5 cm / II.2" Small dividers: I8 cm / 7.1"

Top/Bottom Cylinders

Top cylinder height: II cm / 4.3" Feet height: II,6 cm / 4.6"

MATERIALS

Shelves and dividers: Powder coated steel. Top and bottom details: Injection-molded plastic.

ACCESSORIES

Shelves, dividers and the essentials package can be purchased separately or pre-packed if ordering one of the 8 different pre-configured configurations. See options on next page.

TESTS, LABELS & CERTIFICATIONS

EN 16121:2013 – Test severity I. Non-domestic storage furniture – Requirements for safety, strength, durability and stability.

EN 16122:2012 Domestic and non-domestic storage furniture. Test method for the determination of strength, durability and stability.

Both tests were conducted using a 180 cm / 70.75" shelving configuration with wall brackets attached to the wall.

ANSI/BIFMA X5.9-2019. American National Standard For Office Furnishings – Storage Units.

WEIGHT & HEIGHT RECOMMENDATIONS

The Compile Shelving System should always be mounted to a wall using wall brackets (included in the essentials pack). A Compile Shelving System can hold up to 300 kg / 661 lb. The Compile Shelving Systems can be built as tall as wanted, as long as it is mounted to the wall using wall brackets. Muuto recommends not building configurations higher than 2,25 meters / 88.5".

STACKED STORAGE SYSTEM

by Julien De Smedt

With modules in different shapes, sizes and colors, the Stacked Storage System is a multi-functional storage system, ideal for different storage needs, whether it be in a lounge area, a hotel room, throughout an office space or within any other setting in need of modern, Scandinavian storage.

DIMENSIONS

Small

Height: 43,6 cm / 17.25" Width: 21,8 cm / 8.5" Depth: 35 cm / I3.75"

Medium

Height: 43,6 cm / 17.25" Width: 43,6 cm / 17.25" Depth: 35 cm / I3.75"

Height: 43,6 cm / 17.25" Width: 65,4 cm / 25.75" Depth: 35 cm / I3.75"

Podium

Height: 20 cm / 8" Width: I3I cm / 5I.5" Depth: 35 cm / I3.75"

MATERIALS

Stacked modules and podium in PU lacquered MDF or oak veneer. Stacked clips in powder coated steel.

TESTS, LABELS & CERTIFICATIONS

All shown pre-configured options are tested according to: EN 16121:2013 - Test severity 2. Non-domestic storage furniture - Requirements for safety, strength, durability and stability.

EN 16122:2012. Domestic and non-domestic storage furniture -Test method for the determination of strength, durability and stability.

MAX. WEIGHT AND HEIGHT

CONFIGURATION INSTRUCTIONS

Max. weight of 25 kg / 55.1 lb per module or 12 kg /26.5 lb if mounted on wall. Max. 6 modules on top of each other. Max. height: 285 cm / II2.25"

The modules should always be either wall mounted or connected with 2 Stacked Clips per module - one on each side - and so the individual modules in the configuration are connected to ensure the overall stability of the system.

READY-TO-SHIP OPTIONS / COLOR CODES

All modules: Oak, White (RAL 9016), Light Grey (NCS S 2000-N), Midnight Blue (NCS S 80IO-R90B).

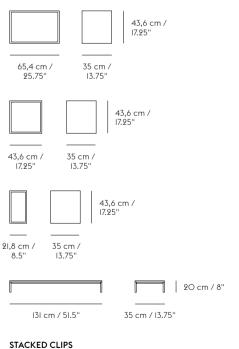

Medium models w/colored backboard: Oak/Light Grey (NCS S 2000-N), Oak/Dusty Green (Pantone 5625 C).

Clips: White (RAL 9016), Light Grey (NCS S 2000-N), Grey (NCS S 55O2-B), Dusty Green (Pantone 5625 C), Midnight Blue (NCS S 8010-R90B).

STACKED CLIPS

Each module comes with either 2 white clips (white modules), 2 light grey clips (oak and light grey modules), 2 grey clips (grey modules) or 2 midnight blue clips (midnight blue modules). Additional clips and clips in other colors can be purchased separately.

34 MODULES TO CREATE **CUSTOMIZED STORAGE**

Arrange and rearrange the Stacked Modules to create the storage system that you'd like, whether it be as shelving setups, sideboards, bookcases or side tables. A Stacked solution is never final and can always be rearranged or enriched with more modules by using the small clips to fasten together the modules for a stabile storage solution. Choose from modules that are open, have backboards or doors. Place the modules directly on the floor or on a Stacked podium.

Visit planner.muuto.com to create your own storage solution or explore our prearranged configurations.

AMBIT RAIL LAMP

by TAF Studio

The clear silhouette and simple form of the shade makes the Ambit Rail Lamp a timeless design. The shade is made from old brazier traditions, press spun by hand, polished and hand-painted. The joints and cables are hidden while supporting wires are remarkably thin, making the lamp float seamlessly in the air.

DIMENSIONS

Height: 20 cm / 8" Width: 126 cm / 49.5" Diameter: 25 cm / 9.75" Cord length: 400 cm / 13'1" Wire: 350 cm / 11' 5"

MATERIALS

Ambit Rail Lamp is made from cast and extruded aluminum. Shades are spun aluminum with PVC cord and steel wires.

PLATFORM TRAY

by Sam Hecht & Kim Colin

DIMENSIONS

Height: 7,2 cm / 2.75" Width: 30 cm / II.75"

MATERIALS

Tray in ABS, insert in laminated oak veneer.

READY-TO-SHIP OPTIONS

Dark Red, Grey, Dark Green, Blue-Grey

ATTACH COAT HOOK

by Dimitri Bähler

DIMENSIONS

Length: 6,3 cm / 2.5" Width: 2,I cm / O.8" Depth: 5,I cm / 2"

MATERIALS

Oak and aluminum, colored with PVD vacuum-treated surface

READY-TO-SHIP OPTIONS

Rose/Oak, Dark Green/Oak, Aluminum/Oak, Black/Oak

FRAMED MIRROR

by Anderssen & Voll

DIMENSIONS

Small

Length: 59 cm / 23.25" Width: 44 cm / 17.25" Depth: 4 cm / I.5"

Length: II8 cm / 46.5" Width: 44,5 cm / 17.5" Depth: 4 cm / I.5"

MATERIALS

Powder coated steel. Mirror glass sheet.

READY-TO-SHIP OPTIONS

Rose/Rose, Grey/Clear, Taupe/Taupe, Dark Green/Clear

RESTORE STORAGE SERIES

*only available for Restore Round Basket.

At Muuto, we put an immense amount of time and care into producing items that are made to last. By following a few simple care procedures, you can preserve the design in great condition for years to come.

ALUMINUM

Aluminum's malleability makes it a grand fit for highly detailed, durable Muuto products, bringing a light, airy feel to robust designs. Our aluminum products are powder-coated for a durable and sturdy finish. Clean the aluminum on a regular basis using a clean and damp cloth with a mild solution of detergent.

ASH

Ash is a key material in Scandinavian furniture. We use the naturally bright, oiled ash wood to bring a light sentiment into our designs. The material is used in all of our colored furniture designs as ash is easily curved and shaped while being an excellent surface for lacquering, giving the vibrant colors a long lifespan. Color lacquered and oil ash wood should be cleaned on a regular basis with a damp, clean cloth. Remove stains using a mild mixture of water and detergent. Avoid surface contact with sharp objects as these can leave scratches in the wood and lacquer.

COTTON

Our throws are made from IOO8 cotton that has been dyed and woven by hand. Cotton is a natural material that is strong and hardwearing while also being easy to clean. Our cotton products can be machine washed at 30°C / 80°F. Wash separately to prevent color changes.

LAMINATE

The laminate used in our designs is partly made from melamine resin; one of the hardest synthetically produced organic materials that has the ability to make a surface highly resistant towards scratches and natural wear. For regular care, clean the laminate surface with a damp, clean cloth. Remove stains using a mild mixture of water and detergent.

LEATHER

We work with some of Europe's leading leather suppliers to ensure that the leather used in our designs is of the highest possible quality. All leather used in Muuto products has been sourced from either Scandinavian or European cattle.

ANILINE LEATHER

Aniline leather is the purest, most natural leather with only around 15% of all leathers in the world being compliant with the requirements for being classified as aniline leather. The leather shows the natural features that are inherently found in animal hides with slight variations of the material occurring for a distinct, unique character. The leather has a natural expression with a soft, warm feel. Our Refine Leather is an aniline leather quality with a smooth, soft surface for optimal seating comfort. The leather is untreated with only a thin light waxing, allowing for the leather to breathe and patinate beautifully.

SEMI-ANILINE LEATHER

Semi-aniline leather is a full grain leather with a light top finish. The treatment of the surface makes the leather more durable. Semi-aniline leather is very soft and pliable with a high level of comfort. Our Easy Leather and Endure Leather are both semi-aniline leathers. We recommend using Endure for contract projects and public environments due to its high durability.

Natural leather does not perform well in dry air and sunlight. As a precautionary measure, we recommend to place leather upholstered furniture away from direct sunlight and refrain from having them in highly air-conditioned rooms as this can make the leather fade or dry out. Regular care of the leather helps maintain its inherent qualities and prolong the lifespan of the surface. Clean the leather with a dry cloth or soft brush. Treat and moisturize the leather four or more times a year using only special leather treatment products for aniline and semi-soft leather products.

LINOLEUM

Linoleum consists of linseed oil, wood flour and resin. The result is a silky matte look, adding a tactile dimension to the surface of a tabletop. Linoleum can be cleaned on a regular basis with a clean, damp cloth. Remove stains using a mild mixture of water and detergent. It is recommended to treat the surface with a linoleum polish 2-3 times a year.

OAK

Oak is a traditional Scandinavian material with durable abilities against factors such as water and fungi, giving it long-lasting properties fit for furniture. Our products in lacquered oak veneer should be cleaned on a regular basis with a damp, clean cloth. Remove stains using a mild mixture of water and detergent. Designs in solid oak, tabletops in particular, should be kept clean using a damp cloth on a regular basis while stains should be removed with a mixture of water and detergent. For long-term care, it is recommended that oak tabletops are treated with a special oak wood oil 2-3 times a year, making the wood resistant to stains and fluids.

OREGON PINE

Oregon pine is a wood type that is softer than ash and oak, meaning that it is less robust and durable. Over time, the surface color of the wood will be slightly altered when exposed to light and indoor climates. Wipe off with moist cloth and remove excess liquid with dry cloth.

POLYMER FELT

Polymer felt is a special composite material, made of two materials: PET and polyester. PET is partly made from recycled plastic bottles. Clean the polymer felt by vacuuming it on a regular basis. Remove stains with a clean, damp cloth.

STEE

The steel that we use for our designs is either painted with a powder coating or chrome plated for a durable and sturdy finish. The chrome quality used for our designs is a chrome 3 variant that is both stainless and robust. Clean both powder coated and chrome steel surfaces on a regular basis using a clean, damp cloth. Remove stains using a mild texture of water and detergent.

TEXTILES

The textiles used for Muuto products are supplied by four different companies: Danish Kvadrat and Swedish Nevotex along with both Arve and Fidertessile from Italy. The companies that we work with have been selected on the basis of their extensive knowledge within the field and state-of-the-art material qualities. For cleaning textiles at home, remove non-grease stains by carefully dabbing with a lint-free cloth or sponge that has been wrung out in warm water. If necessary, clean by dabbing with soapy water. Finally, dab the surface with clean water. For all Kvadrat upholsteries, please see Kvadrat.dk for further cleaning and maintenance instructions for your chosen textile

WOOD FIBER & PLASTIC COMPOSITE

Our Fiber Chair Series is designed in an innovative composite of wood and plastic fibers, a material was uniquely developed for the Fiber Chair series. With the shell consisting of up to 25% wood fibers, the shell a uniquely deep surface and soft, matte touch. Though invisible to the eye when viewed from afar, the natural details of the wood fibers are revealed when viewing the design up-close. Note that slight variations in the surface may occur due to the inherent characteristics of the material. For regular cleaning, use a clean, damp cloth. Remove stains using a mild mixture of water and detergent

woo

Our rugs are made from New Zealand wool, a natural material that is easy to clean and preserve. All rugs are woven by hand. We recommend having your wool products dry-cleaned to avoid damaging the product. For regular cleaning at home, gently vacuum clean the wool rugs. Clean stains instantly with sparkling water. We also offer a rug pad that will reduce wear and tear, keep the rug from sliding and ensure that it lays smoothly on the floor.

At Muuto, we use an expanded breadth of materials to express our ideas of new perspectives on Scandinavian design. Working with leading suppliers across the world, we strive to use materials that embody our quality standards to provide designs that'll pass the test of time and bring a modern touch to any space at one and the same time. Explore the various textures of materials that are used throughout the Muuto universe.

TEXTILE OPTIONS

Striving to work with the best suppliers, the textiles used for Muuto products are by four different companies: Danish Kvadrat and Swedish Nevotex along with both Arve from Italy and Rohlede from Germany'—all suppliers that have been selected on the basis of their extensive knowledge within the field and state-of-the-art material qualities.

*Upholstered Muuto products that have the Declare Living Building Challenge Compliant certification only have the certification when upholstered with the following Kvadrat textiles: Canvas, Clara, Divina, Divina MD, Divina Mélange, Fiord, Hallingdal, Remix, Rime, Steelcut, Steelcut Trio and Vidar.

Please note that all variants are subject to stock availability and certification across regions. Consult our price list for further information.

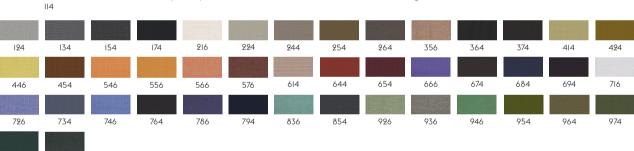

CANVAS BY KVADRAT

Designer: Giulio Ridolfo.

Composition: 90% new wool worsted, IO% nylon.

Durability: IOO.OOO Martindale / Lightfastness 5-7 (ISO I-8).

Sustainability: Complies with both EU ecolabel "The Flower" and Greenguard Gold Certification.

996

984

CLARA BY KVADRAT

Designer: Anne Birgitte Hansen. Composition: 92% new wool worsted. Durability: 80.000 Martindale.

CLAY BY KVADRAT

Designer: Vincent Van Duysen for Kvadrat. Composition: 76% Linen, 21% Cotton, 3% Polyester Durability: 45.000 Martindale / Lightfastness 4-6. Sustainability: Complies with Greenguard Certification.

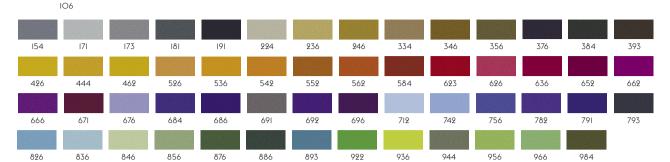

DIVINA BY KVADRAT

Designer: Finn Sködt. Composition: IOO% new wool. Durability: 45.000 Martindale.

Sustainability: Complies with both EU ecolabel "The Flower" and Greenguard Gold Certification.

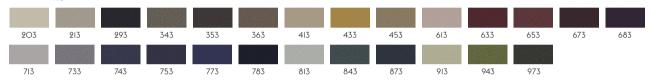

DIVINA MD BY KVADRAT

Designer: Finn Sködt. Composition: IOO% new wool. Durability: 45.000 Martindale.

Sustainability: Complies with both EU ecolabel "The Flower" and Greenquard Gold Certification.

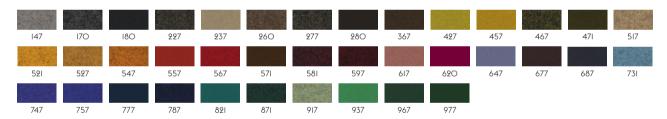

DIVINA MELANGE BY KVADRAT

Designer: Finn Sködt. Composition: IOO% new wool. Durability: 45.000 Martindale.

Sustainability: Complies with both EU ecolabel "The Flower" and Greenquard Gold Certification.

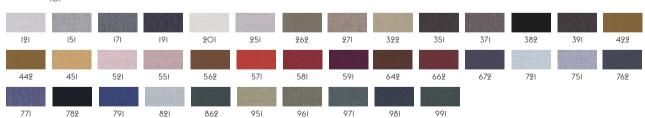

FIORD BY KVADRAT

Designer: Tone Barnung & Louise Sigvardt Composition: 92% new wool worsted, 8% nylon. Durability: 60.000 Martindale / Lightfastness 5-6.

IOI

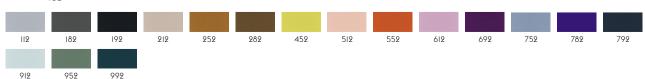

FOREST NAP BY KVADRAT

Designer: Akira Minagawa Composition: 95% new wool (worsted), 5% nylon Durability: 50.000 Martindale / Lightfastness 5.

Sustainability: Complies with both EU ecolabel "The Flower" and Greenguard Gold Certification.

HALLINGDAL 65 BY KVADRAT

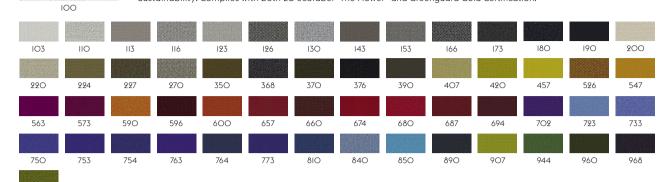

Designer: Nanna Ditzel

Composition: 70% new wool, 30% viscose.

Durability: IOO.OOO Martindale / Lightfastness 6-7.
Sustainability: Complies with both EU ecolabel "The Flower" and Greenguard Gold Certification.

980

Designer: Patricia Urquiola. Composition: 968 new wool, 48 nylon. Durability: 45.000 Martindale.

Sustainability: Complies with EU ecolabel "The Flower".

IOI

OCEAN BY ROHLEDER

Designer: Rohleder

Composition: 74 % Polyacrylic / 26 % Polyester

Durability: 30.000 Martindale / Lightfastness 5-7 (ISO I-8)

STEELCUT TRIO BY KVADRAT

Designer: Dijkmeijer & Ridolfo

Composition: 90% new wool worsted, IO% nylon.

Durability: IOO.OOO martindale / Lightfastness 5-7 (ISO I-8).

Sustainability: Complies with both EU ecolabel "The Flower" and Greenguard Gold Certification.

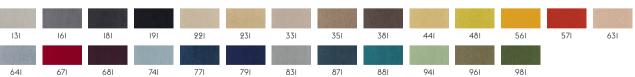

STILL BY KVADRAT

Designer: Georgina Wright Composition: IOO% Trevira CS

Durability: 50.000 Martindale / Lightfastness: 6

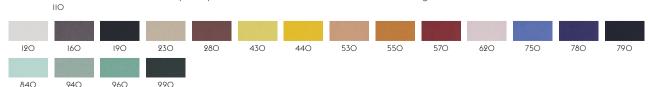

TWILL WEAVE BY KVADRAT

Designer: Jonathan Olivares

Composition: 90% new wool (worsted), IO% nylon

Durability: 60.000 Martindale

Sustainability: Complies with both EU ecolabel "The Flower" and Greenguard Gold Certification.

VANCOUVER BY ARVE

Designer: Gabriella Zecca Composition: 52% cotton, 48% acrylic.

Durability: 40.000 Martindale / Lightfastness 4-5.

4

VIDAR BY KVADRAT

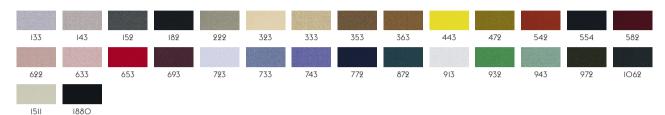

Designer: Raf Simons & Fanny Aronsen for Kvadrat.

Composition: 94% new wool, 6% nylon.

Durability: IOO.OOO Martindale / Lightfastness 6-7.

Sustainability: Natural fibres / Sustainable resource. Complies with Greenquard Gold Certification.

WOOLY BY NEVOTEX

Designer: Nevotex

Composition: 70% wool, 25% polyamide, 5% other fibres.

Durability: I50.000 Martindale / Lightfastness 6-8.

Wooly is woven in 70% recycled wool, sourced from leftover materials of clothing production and other wool products. One kilo of pure new wool generates 9 kilograms of carbon dioxide when produced while processing one kilo of recycled wool only generates 0.5 kilograms of carbon dioxide. Furthermore, recycled wool has a positive environmental impact due to lessened water consumption and lower energy consumption.

Textile δ Leather Options

LEATHER OPTIONS

At Muuto, we work with some of the leading European leather suppliers to ensure that the leather used for our designs is always of the highest possible standard. Our leather options range from the Refine Leather, a modern and sleek full-grain leather with a soft touch, over Easy Leather, a lightly buffed natural grain leather with a soft and waxy feel along with a matte look, to our Endure Leather, a pliable and extremely durable semi-aniline leather ideal for hard contract environments, and the Faux Leather, being particularly suitable for healthcare and education environments as it is resistant to disinfectants.

EASY LEATHER

Lightly Buffed Natural Grain Leather Raw material: Designed and processed in Italy. The leather is dyed through, chrome tanned and finishing is with resins and pigments.

ENDURE LEATHER

Semi-aniline leather with high durability, making it ideal for contract environments. Raw material: Leather from Scandinavian raw hides.

The leather is dyed through a chrome free

tanning process. Also available in custom colors in a minimum of I hide.

FAUX LEATHER

Imitation leather. Composition: 85% PVC, 15% cotton. Durability: 75.000 Martindale.

Composition: 858 PVC, 158 cotton. Durability: 75.000 Martindale. Resistant to disinfectant which makes it suitable for Healthcare and Education environments. IMO certified.

Note that this product contains O,I - O,2 & C,C'-azodi (formamide), CAS no. 123-77-3.

AMST

REFINE LEATHER

Aniline Leather.

Raw material: Grain leather from European raw hides. The leather is dyed through, chrome tanned and produced without the use of PCP and CFC which can be damaging to the environment.
